HEADQUARTERS
BRYAN AIR FORCE BASE
BRYAN, TEXAS

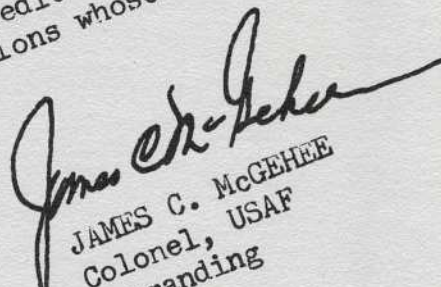

TO THE CLASS OF 53-C:

Congratulations to the members of Class 53-C for successfully completing the course at Bryan Air Force Base. We know that the training you have been given is the best available in the world and we also know that the lessons you have learned while here will be remembered and cherished throughout your flying career.

You have just scratched the surface in a new - era that which we deem to call the "Jet Age" and should consider yourselves fortunate in getting in on the ground floor.

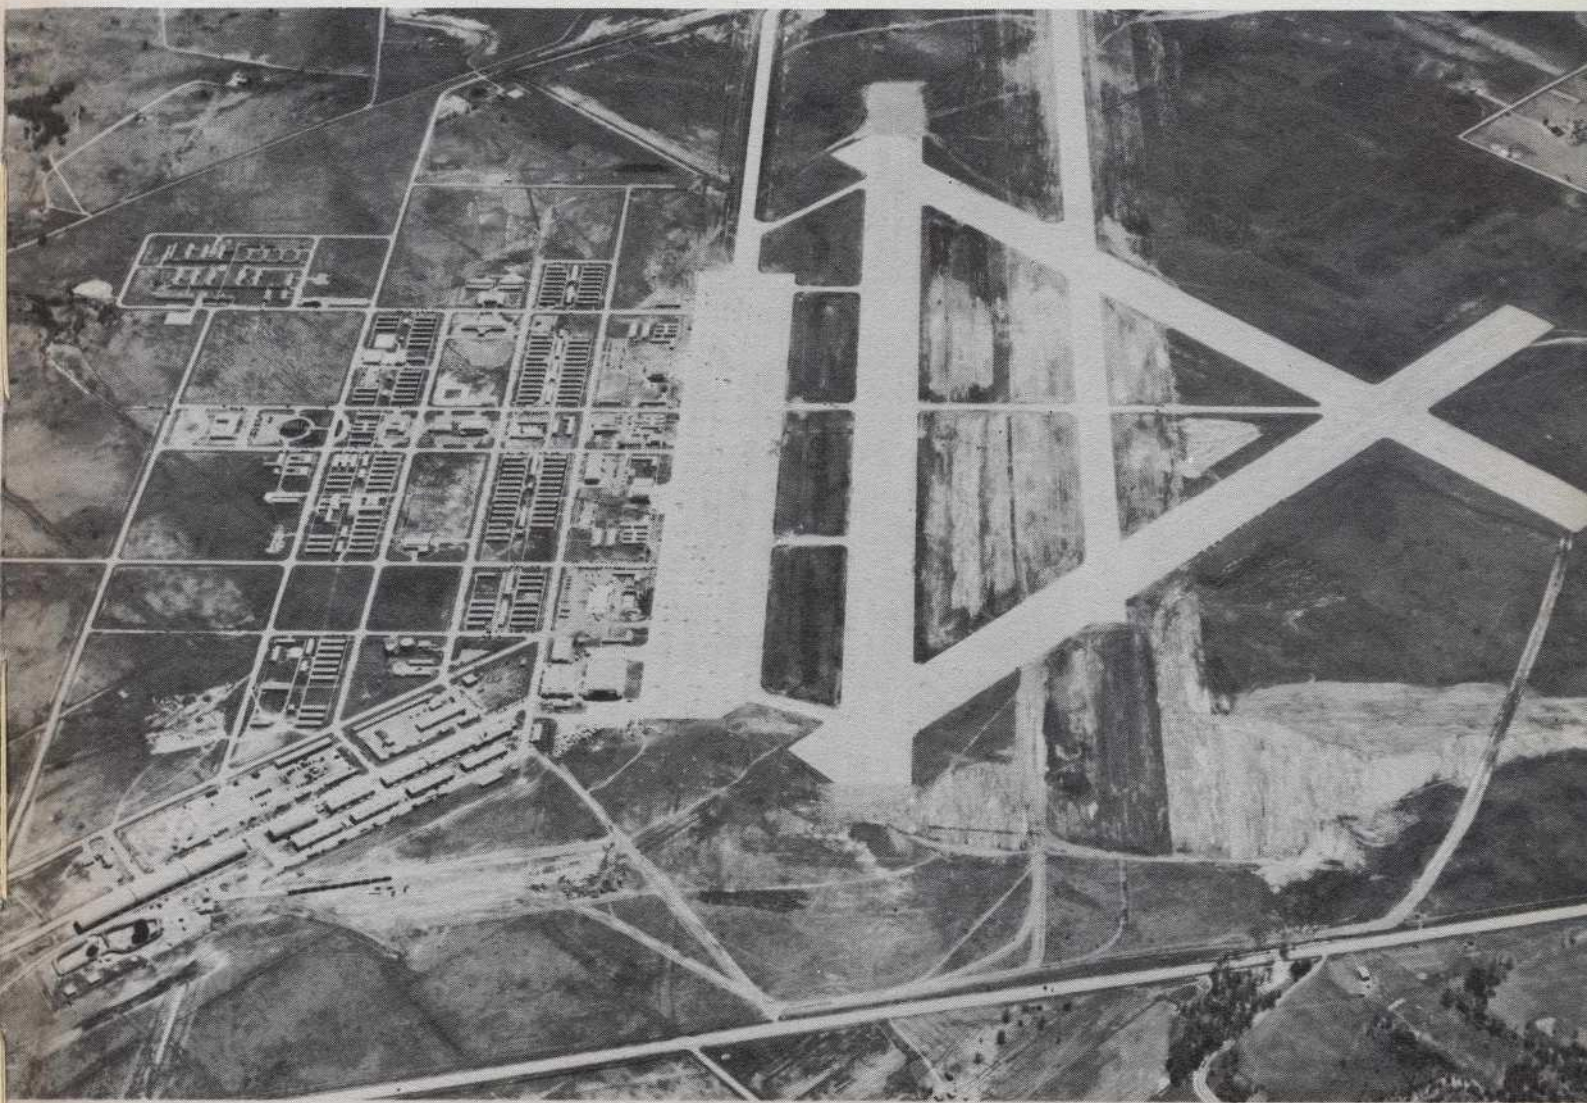

Flying is an arduous task; full of intangibles and various complexities and those of you that fail to keep abreast of the technological developments will be left by the wayside.

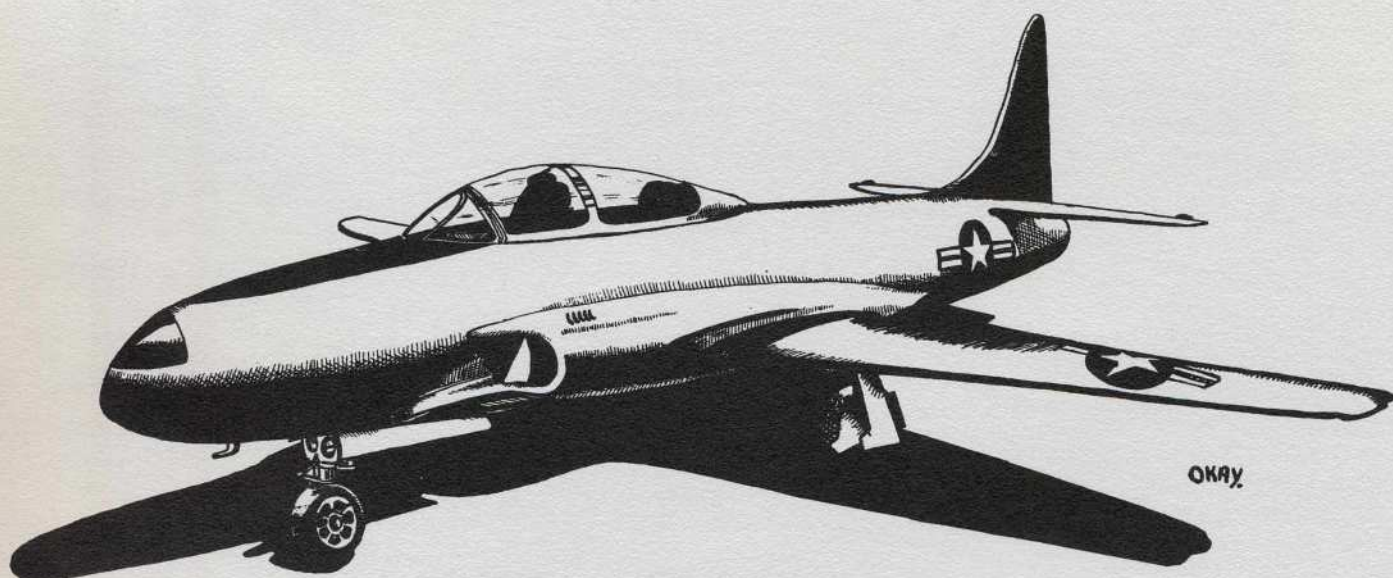

Every day you will learn something new, either on the ground or in the air, which will increase your capability as a military pilot. You must be relentless in seeking this knowledge and in so doing you will be a credit to your Air Force, your country and to the combined nations whose ultimate goal is to have the world at peace.

JAMES C. McGEHEE
