## *TEN COMMANDMENTS OF AN INSTRUMENT PILOT*

### *"By This We Live"*

Set thyself well upon thy fifth vertebra; leaving not thy fingerprints on the controls, and chewing not thy fingernails.

Know thy instruments, for they are the true and appointed prophets.

Follow the indications of thy instruments; and verily the airplane will follow along, even as the tail follows the sheep.

Do not stick thy neck a foot; stay within the confines of thy ability, and thou shalt live to a happy old age.

Know the appointed words and approved methods so that if thy neck drapeth out, thou shalt be able even unto thyself to place same in its proper place—upon thy shoulders.

Follow thy radio beam, for their ways are the happy ways and will lead to the promised land—ing.

Listen carefully, yea verily, to the signal impinging on thy eardrums for sometimes they seem to have the tongues of snakes and will cross up thy orientation, to the sad state to where thou must ask Heaven for guidance.

Assume not, neither shalt thou guess that thy position is such, but prove to thine own satisfaction that such is the case.

Boast not, neither brag; for surely Ole' Devil Overcast shalt write such words in his book, and thou shalt, someday, be called for an accounting.

Trust not thy seat (of thy pants) but follow thy instruments, read and truly interpret the words as given from thine instrument board, know that the responsibility lies not with the hand that rocks the control column, but in and with the mind that directs the hand, and thou shalt be blessed with a long and happy life.
