THE **BELLY**

...an army travels on!

This historic quote takes on new meaning in the Air Age.

For in the belly of the rugged Fairchild C-119 transport, the air and ground armed forces can move with a mobility not believed possible yesterday.

Successor to the famous C-82, the C-119 is a more versatile and powerful Packet, designed to land, unload fully assembled vehicles and heavy machinery—load up again and take off in a matter of minutes, demonstrating the flexible ground handling needed in an airhead.

The highest skills of engineering and manufacture insure the continued growth and effectiveness of this mode of travel...for those entrusted with our national defense.
